

How We Work With You

Design Only vs Full Support

Every job starts with scoped design and an orderable part list. Full Support adds coordination through commissioning. Basic Design is the package only.

Buy the list. Install your way. Full Support keeps us in the loop until the system works.

Design only

Basic Design

Drawings and part list — then you run with it

- Scoped drawings and orderable BOM
- One design review walkthrough
- No coordination after handoff

Recommended

Full Support

Handholding through commissioning

- Everything in Basic Design
- Quoting, purchasing, and trade coordination
- Available until the system works per design

2026 pricing by scope

Scope	Basic Design	Full Support
Small / simple scope Single site, under ~16 cameras, limited doors, straightforward network.	\$400 – \$1,200	\$2,200 – \$3,800
Larger / complex scope Multi-building, wireless hops, remote WAN, heavy coordination.	\$1,800 – \$3,200	\$4,000 – \$6,500

Full Support path

01 Conversation	02 Design & list	03 Quoting	04 Site prep	05 Commissioning
